

Dear Members,

This is with reference to guidelines on Continuous Professional Education (CPE) issued by IBBI in August 2019 (as amended from time to time) applicable to the registered insolvency professionals.

While processing the applications for CPE credit, it has come to our notice that of late, many members have been attending programs repeatedly and claiming credit, in disproportionately higher numbers, under the single subject of 'valuation'. It is felt that such tendency is not aligned to the objective of building systematic competencies of professionals as clearly stated in the above guidelines.

Therefore, the members are advised to be cautious while attending such programs concentrated around one subject only, and endeavour to attend programs on diverse subjects which eligible organizations like IIIPI have been organizing from time to time. IIIPI reserves the right not to approve applications in future, for claiming CPE credit against concentrated programs, being offered by some organizations.
